

Fleet Electrification

Tools and Techniques for Tracking Your Fleet's Success

Speakers

- Rhona Matthews, Project Manager, Fleet & Dealership Programs - Center for Sustainable Energy
- Casey Fallon, Director Purchasing, Warehouse, Fleet - Sacramento Municipal Utility District
- Jacob Berks, Manager, Fleet Operations - Sacramento Municipal Utility District

Getting Started

<https://cleanvehiclerebate.org/eng/fleet>

CARB Incentives

Up to \$5,000 per vehicle

Standard CVRP Fleet Rebate
or

Up to \$7,000 per vehicle

Increased CVRP Fleet Rebate (DAC Eligible Fleets)

\$8,000 to \$120,000 per vehicle

Hybrid and Zero-Emission Truck
and Bus Voucher Incentive Project

CVRP Public Fleet Rebates

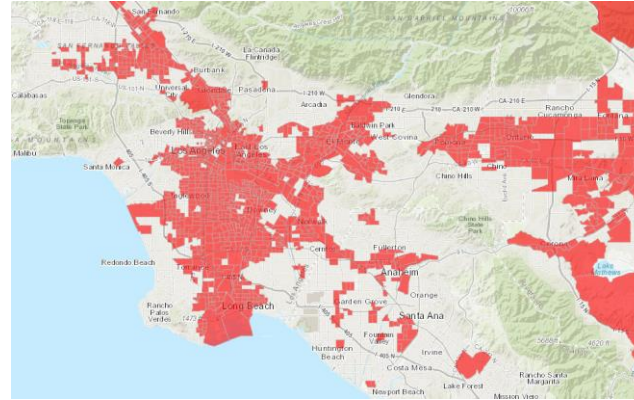

Vehicle Type	Standard Amount	Increased Amount
Fuel-cell electric vehicle	\$5,000	\$7,000
Battery or range-extended electric vehicle	\$2,500	\$4,500
Plug-in hybrid electric vehicle	\$1,500	\$3,500
Zero-emission motorcycle	\$900	n/a

Increased CVRP Rebate Eligibility

+\$2,000

Available to vehicles located within a California disadvantaged community census tract.

Fleet Electrification

Where things can go wrong...

**Bricked Vehicles
(no chargers)**

**Too Many Vehicles Causes
Low Utilization**

Driver Behavior

Problems Scaling Up

Leading the way

Electric transportation for a cleaner future

Jacob Berks

Manager, Fleet Operations

Casey Fallon

Director, Purchasing, Warehouse and Fleet

Webinar focus

Public and private fleet operators and managers can **learn about fleet success** and **how to measure it** from industry experts during this webinar sponsored by [CVRP for Fleets](#). It will cover the **criteria, key performance indicators and software** used for evaluating fleet **utilization, tracking maintenance and operational costs and other critical factors.**

Who are we?

Sacramento Municipal Utility District (SMUD)

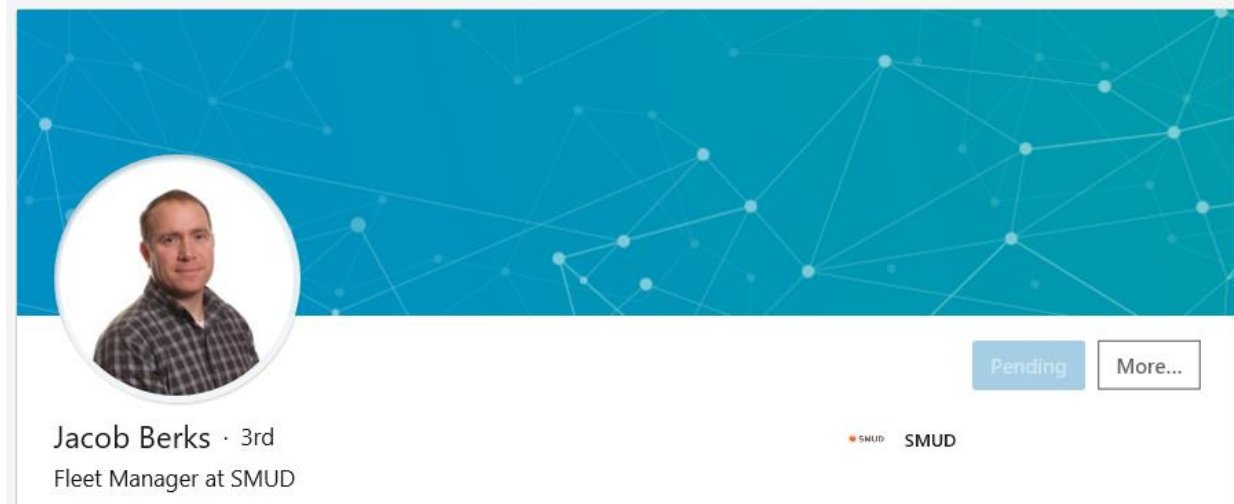

Some facts and figures

- Population in our service area: 1.5 million
- Size of our service area: 900 square miles
- Total accounts served (residential + business): 628,952 (as of Dec. 31, 2017)
- Number of SMUD employees: 2,293
- Miles of power lines we own: 10,473
- Power from non-carbon-emitting resources: 50%

Who are we?

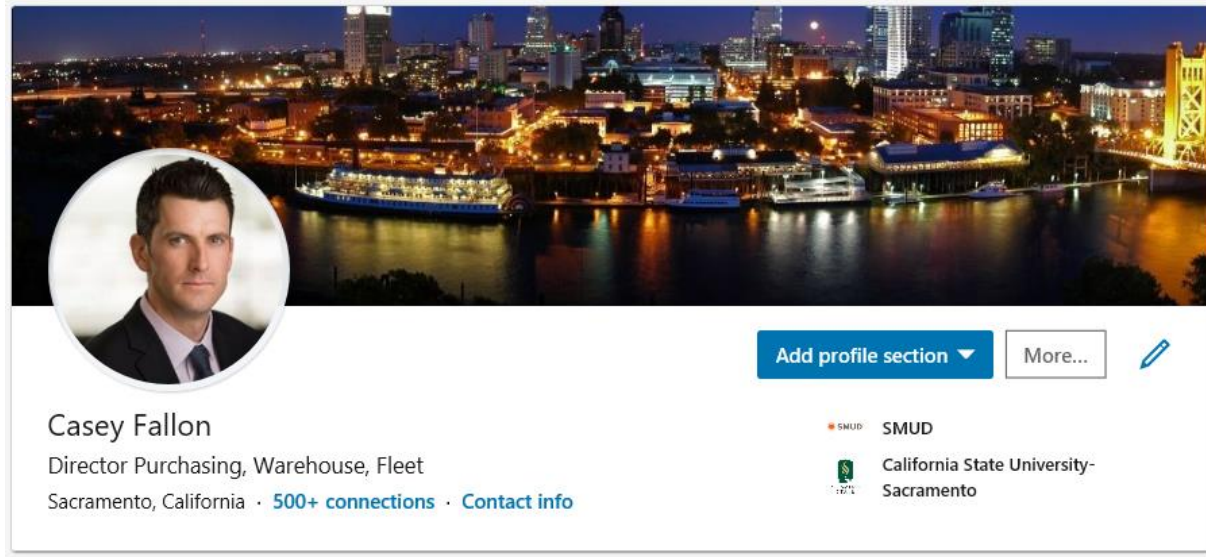

Jacob Berks, Fleet Manager

A LinkedIn profile card for Jacob Berks. The background is a teal color with a white network graph pattern. On the left, there is a circular profile picture of a man with short hair wearing a plaid shirt. Below the picture, the text reads "Jacob Berks · 3rd" and "Fleet Manager at SMUD". To the right of the profile picture, there are two buttons: a blue "Pending" button and a white "More..." button. At the bottom right of the card, there is a small orange square icon followed by the text "SMUD" and "SMUD".

Who are we?

Casey Fallon, Director Purchasing, Warehouse, Fleet

A screenshot of a LinkedIn profile card for Casey Fallon. The background of the card is a night-time photograph of a city skyline with a river and a bridge. On the left side, there is a circular profile picture of Casey Fallon, a man with dark hair wearing a suit and tie. Below the profile picture, the text reads: "Casey Fallon", "Director Purchasing, Warehouse, Fleet", and "Sacramento, California · 500+ connections · Contact info". On the right side of the card, there are three buttons: "Add profile section" (blue), "More..." (white), and a pencil icon. Below these buttons, there are two organization logos: "SMUD" and "California State University-Sacramento".

Agenda

- Introductions
- SMUD's fleet
- How we measure and manage the fleet
- Key performance indicators and metrics
- Planning for fleet electrification at SMUD
- Measures of success, examples, lessons learned
- Future goals and focus

SMUD's fleet

- 980 light, medium, heavy duty & off-road vehicles
 - ECOC & CSC: 850
 - Fresh Pond & Riverton: 116
 - Rancho Seco: 9
- Fleet total replacement value: \$75M
- Fleet average age: 9.8 years
- Annual fuel spend: \$1.9M
- Operating and Maintenance: \$4M
- Annual replacement budget: \$8M
- Replacement based on age, miles, maintenance, application and utilization
- 12% EV's including Hybrid technology across the entire fleet

Fleet criteria

- Fuel
- Lease
- Damage
- Maintenance (Corrective/Preventative)
- Capital
- Projects

Fleet scorecard

IRP – Electrification Focus

SMUD's Path to Fleet Electrification

1991

1991 Chevy S-10

Chevy S-10 pickups were converted from gasoline to electric; the engines were removed and the pickup beds filled with batteries to fuel the vehicle

1997 - 2007

Rav-4 Electric Vehicle

SMUD leased Rav-4's; one of the few EV's on the road produced by a manufacturer. Toyota recalled these upon the end of their leases

2006

Mils Vehicle

Electric forklifts and Mils station wagons purchased for campus use

2007-2010

All Electric Ford Ranger

All electric Ford Rangers used for local services

SMUD's Path to Fleet Electrification

2009

2015

2018

Eaton Hybrid Electric Drive Line Truck

SMUD's first hybrid electric drive line truck with 60' boom

Altec JEMS Hybrid Electric Bucket Truck

SMUD's first hybrid electric bucket truck with Jobsite Energy Management System (JEMS)

Idle Mitigation Systems

Idle mitigation systems adopted by SMUD; promoting cleaner air, reduced fuel costs & worksite noise and cab comfort minus the running engine

ering forward. Together.

Roadmap & Goals

**DRAFT
GOALS**

- ★ \$1M EV investments (year end 2019)
- ★ 100% EV sedan fleet (year end 2020)
- ★ Increase fleet electrification by 5% during 2019
- ★ 100% Eligible Fleet Electrified (year end 2025)

SMUD's Future with Fleet Electrification

2019

2023

2025

2030

2019 Chevy Bolt

Altec JEMS Hybrid Electric Bucket Truck

Ford F-150 EV Prototype

CA State Electrification

★ 100% sedan electrification by EOY

★ Increased hybrid bucket truck electrification

★ 100% eligible fleet electrification

5,000,000 ZEV's in CA State

★ EPA goal of 13%-15% electrification of total fleet, currently at 10%

Align with city, state & regional goals for electrification

Measuring Electrification

Benefits

Lessons learned

- Electrification cannot just be a fleet goal
- It costs a lot of money, planning, infrastructure
- It's not one-size-fits-all; market solutions are limited for our industry.
- Get out front and control the conversation
- Credits and rebates can't necessarily drive decisions
- Pay attention to the battery warranties \$\$\$
